

# AMP MSDS

## neutralizing amine

### ANGUS Chemical Company

800 447-4369 (toll-free)

989 832-1560 (phone)

### General

Synonyms: AMP, isobutanolamine, 2-amino-2-methyl-propan-1-ol

Molecular formula: C<sub>4</sub>H<sub>11</sub>NO

CAS No: 124-68-5

### Physical data

Appearance: viscous liquid

Melting point: 30 C

Boiling point: 165 C

Vapor density: 3.0 (air = 1)

Density (g cm<sup>-3</sup>): 0.93

Flash point: 68 C (closed cup)

Water solubility: appreciable

### Stability

Stable.

Combustible.

Incompatible with strong oxidizing agents.

### Toxicology

Eye, skin and respiratory irritant.

### Personal protection

Wear safety glasses.

In case of contact with eyes, rinse immediately with plenty of water.

Wear suitable protective clothing.
